Please note:

1) Legs on above lines give the most effective mask into the wings. The fan shape of the auditorium can make side masking quite difficult. Legs 1, 2 & 3 have returns downstage of approx. 1100 mm.

2) In the case of lighting bars, if the distance to the next bar, up or down stage, is 150mm then that bar should be left free. (i.e. for stock rig line 3 should be left free)
